mitteeman. The delegation adopted a resolution of appreciation of Mr. Manley's long and laborious service as the Maine member of the national committee. Fred W. Smith of Portland was selected as chairman, and H. A. H. Phillips of Portland as secretary. The convention proceeds distributed as follows: Credentials, Sanford L. Fogg of Bath; resolutions, Elmer P. Spofford of Deer Isle; rules and order of business, W. K. Dana of Westbrook; permanent organization, V. L. Coffin of Houghton; vice president of the convention, Albert A. Burleigh of Houghton; to notify nominee for president, L. M. Goodale of Sanford; to notify nominee for vice president, H. A. H. Phillips of Portland.

A UNIQUE NEWSPAPER.

Throughout the State of Maine manufacturers seem to think that the present situation is a very serious one, not alone because the high price of cotton and the dull markets force curtailment, but because there are Southern mills that are able to keep in full operation under the present adverse conditions. These mills, and especially the English mills in the New York markets when sales cannot be made. The Lewiston mill authorities state that the mills, as a rule, have cotton enough on hand to carry them over almost through the season, until September, at least; but, unless there is a radical change in manufacturing and market conditions, it is probable that curtailment will be general in Lewiston for some time in August. If curtailment is decided on at all the mills in Lewiston will probably act together for reasons of economy and to prevent one corporation from benefiting by hiring some of the others' operatives. What has been said about the possibility of a strike is found to be substantially true of mills in Waterville, Augusta, Brunswick and other places to the eastward. Nearly a sixth of the full product of the Pepperell Manufacturing

(Special correspondence of The Journal.)

the contrary—the fact remains, proved again again by sad experience, that the more volatile Latins, and especially those with a preponderance of Spanish blood, are not capable of self-government; and therefore Republicanism, pure and simple, does not meet their requirements. The government of Uruguay is divided into the usual three departments, executive, judicial and legislative. The President is elected by a majority of the General Assembly for four years, and is not eligible to two consecutive terms. The five ministers composing the cabinet are appointed by the President and are responsible to him alone. The little Republic is divided into nineteen departments, which answer for the States in ours; and each department sends one Senator to the "upper house" of the General Assembly. The "lower house" has fifty-three members, who are elected every year directly by the people, proportioned according to the number of voters in each department. Thus Montevideo, the most thickly settled portion, has twelve representatives, while all the other departments have only two each. The constitution regulates the annual session of the legislature from January to June, but renders that wise regulation practically null by providing for extra sessions—greatly to the disgust of country members, who are kept at the gay and expensive capital nearly the year around by the majority residing in Montevideo. The consequence is that outside the capital none but rich men dare to aspire for the office. Judging from the few sessions which I have attended the Uruguayan Congress seems to conduct its routine business on much the same plan as that at Washington. Indeed, looking down from the gallery upon the rows of shiny bald heads and listening to the spread-eagle flights of rhetoric, called forth on the slightest provocation, such as chartering a tramway or bridging a back country creek, one might easily fancy himself under the big dome capped by the bronze Goddess of Liberty, were it not that Spanish is spoken here instead of American-English.

South Americans incline by nature to eloquence as ducks to water, and oratorical gifts are rated higher than any other. In no country of like compass and population can one hear on every hand and read in the local papers so much high sounding but empty gush concerning Republican simplicity, paternal government, equal rights, veneration of habeas corpus, and similar humbugs, as in La Banda Oriental. The State religion is Roman Catholic, but other sects are tolerated—all except the poor Jesuits. Infidels, Mohammedans, Jews, heathens, are welcome to come and proclaim their peculiar faith, or their lack of any, at will; but the sister sect, once so powerful a rival, without whose pioneer efforts among the aborigines the government of today would never have existed—are most bitterly tabooed.

Of late years the Uruguayan government has paid unusual attention to the education of the masses. It required a hard struggle to separate the schools from denominational control; but the late President Santos accomplished it by measures that at the time seemed brutal, but are now generally acknowledged to have been for the public good. Rudimental education is gratuitous, and compulsory upon children between the ages of 6 and 14. Though the total population of the Republic is barely 700,000, there are no less than 380 public schools, with a staff of 800 teachers, two-thirds of whom are women. Besides these, the small republic has upwards of 500 private schools, with about 1,000 teachers and nearly 25,000 pupils. There is a military college in Montevideo supported by the government, whose cadets are graduated with the grade of lieutenants. The University of Uruguay averages 500 students and has a distinguished corps of professors. There are also two English academies in Montevideo. The special pride of the country and hobby of the government is the new school of Arts and Trades. It occupies a handsome building near the Plaza Ramirez, and is supported by the State. Its aim is to afford poor boys an opportunity to learn good trades or professions, and thus become useful citizens. An applicant for admission must—first of all—be of Uruguayan birth and an orphan; he must not be more than thirteen years old at the time of entering, have been previously vaccinated, and his guardian or sponsor must contract for him, in writing, that he shall remain six years under the absolute control of the principal of the school, with no interference from home or elsewhere. The school is conducted upon a military plan, and discipline of the strictest sort is observed. Its expenses are borne by the Department of War and Marine, eked out by the products of student labor. Sales of the work accomplished take place at regular intervals. The most powerful gunboat in Uruguay's navy was entirely constructed by these young workmen and launched by them in the bay. To the great delight of the institution this gunboat the Rivera was immediately called upon for war and did excellent service in putting down the last revolution. Speaking of the navy, it consists of only three gunboats and seven small steamers, manned by about 200 marines, 50 engineers and a dozen officers, with ten Jefes or Chiefs. The standing army is composed of four battalions of infantry, four regiments of cavalry, and one of artillery, and has an astonishing number of superior officers. It is the fashion for aristocratic young gentlemen to get "into the army," but by no means to carry a musket. The rank and file are a wild, brutal looking lot, large negroes and Indians. They are no formidable in appearance, but ought to fight well if there is anything in heredity, having descended from fighting fathers and grandfathers, through

any generations. Their uniform consists of white canvas trousers of immense proportions, fastened over the ankle, more like feminine "bloomers" than French zouaves; white canvas gaiters, red forage caps, and blue flannel ulsters reaching nearly to the ground, ornamented with innumerable brass buttons. They carry rifles with sword bayonets, knapsacks, blankets and tin plates. The officers are very handsomely costumed in dark broadcloth, the mounted officers having beautiful horses, gorgeous saddles and silver-plated spurs and stirrups. One reason why the common soldiers are such ill-looking fellows is because they really are the off-scourings of the country, being mainly recruited from the penitentiary. The law provides that after a criminal has passed a specified time in prison, under certain conditions, he may serve the remainder of his term in the army. It is said that the discipline of the army is even more severe than that of the prison, but were it ten times more strict, most men would prefer it to prison life.

SCROFULA SPREADS.

Alarm Caused by an Invasion of Ulcerous Sores. Perplexity of the Doctors in a Typical Case. Serious Case Relieved by an Important Discovery.

The fear which is justly aroused by the appearance of a disease with such fatal tendencies as scrofula, will be relieved by a statement of a recent remarkable cure. Mr. Thomas F. Brown, of the Hume Cottage Company, Amesbury, Mass., says:

"About two years ago I was affected with a scrofulous disease which spread over my whole body. It first affected the glands in the neck and then broke out over my chest and other parts of my body. I became greatly alarmed at the spreading of the disease, and consulted physicians in Amesbury and Newburyport. They told me that I had a bad case of scrofula, and that I would have to lose all hope."

"There was chronic inflammation all over my body wherever the disease had spread; there would be a discharge of yellow-colored pus where the skin would break and leave an ulcerous sore. These sores would dry up for a while only to break and discharge again."

"The medicines which the physicians prescribed had no effect in checking the disease and I was in a most miserable state of discouragement. One day I heard the doctor say that there was danger of the disease terminating in consumption. Then I began to lose all hope."

"One day, however, as I lay in bed reading a newspaper, I read an article recommending Dr. Williams' Pink Pills for Pale People very highly for cures of the blood, and, as the doctor's treatment during the preceding three months had done me no good, I decided to stop it and take the pills."

"After I had taken three boxes I saw the inflammation was going down and that there were fewer sores on my body. I realized that I was improving and I continued to use the pills until I had taken eight boxes. This brought a permanent cure. I am now enjoying good health, have a keen appetite and can do as big a day's work as at any time before I was stricken down, and for a fraction of thirty votes in my excellent physical condition to Dr. Williams' Pink Pills." This great remedy is sold by all druggists throughout the world.

SCHOOLS AND COLLEGES.

It is announced that not one but three new chapter houses are to be occupied next winter at the University of Maine,—the Sigma Alpha Epsilon, Theta Epsilon, and Beta Theta Phi. The Beta house, trustees of the University state, will be erected in a position north of its present site and occupied by the fraternity of Theta Epsilon, the site thus left vacant being taken by the handsome new Beta house to be erected during the coming summer. The Sigma Alpha Epsilon house is now well under way on the site opposite that of the Beta Theta Phi.

At the 33rd annual Commencement at the University of Maine, June 8th, degrees were conferred upon 97 men and four women, the largest number ever graduated from any Maine college. Ten of this number were advanced degrees, 14 were conferred upon graduates of the School of Law, five upon graduates of the short course in pharmacy and the remainder regular degrees in arts and science upon graduates of the regular four years' courses.

The seventy-fifth annual catalogue of the Coburn Classical Institute, Waterville, shows an enrollment of 160, of whom 94 are in the college preparatory course. These pupils are registered from 50 different towns, from five different States, and two provinces of Canada. The catalogue contains 52 pages, including a complete statement of the courses and several pages of general information. An unusual feature of the catalogue is that of the graduates who have entered college from the school, with the colleges entered by each. The records are available for only 50 of the 75 years. A tabular statement shows that during these years 760 students have entered 17 colleges from this school. It is a conservative statement to say that over 1,000 students from Coburn have entered college.

DEMOCRATIC STATE CONVENTION.

A Democratic State Convention will be held in City Hall, Waterville, Thursday, July 14, 1904, at 11 A. M., for the purpose of nominating a candidate for Governor, and selecting six candidates for Electors of the President and Vice-President of the United States, and the transacting of any other business that may properly come before it. The basis of representation will be as follows:

Each City, Town and Plantation will be entitled to one delegate, and for each fifty votes cast for the Democratic candidate for Governor in 1900, one additional delegate, and for a fraction of thirty votes in excess of fifty votes an additional delegate.

Vacancies in any delegation can be filled only by a resident of the County in which the vacancy exists.

The State Committee will be in session in the reception room of the hall at 9 o'clock on the morning of the Convention to receive the credentials of delegates.

All Democratic conservative citizens of Maine, who believe that the State should be governed in a more economical manner, and a cessation made of the present method of squandering the people's money, are cordially invited to unite under this call in electing delegates to this Convention.

Per order, Democratic State Committee,

SEARSPORT LOCALS.

Former mention by The Journal of the sheep and goat team owned and broke-to-harness by Willie Clark, who lives on rural route No. 1, Searsport, Maine, is causing much interest in the combination team, so much in fact that the Sunday Globe sent and had a photograph taken of them, their driver and a few of his little friends grouped around the team which appeared in last Sunday's paper. Stock in the team is advancing, for Willie considers their value doubled since they became so notorious.

Sears Lodge, I. O. O. F., has just received a most beautiful banner from the Henderson and Ames Company of Kalamazoo, Mich. The banner is 40x60 inches, body, lambrquin and side panels of a superior grade of satin of rich harmonizing colors. Lettering in gold leaf, finely shaded and ornamented with fine scroll work in oil painting. Side drapes ornamented with emblems painted in oil colors. Center contains a work of art, consisting of an elaborate scene enclosed in an olive wreath, handsomely painted in natural colors. Panels at bottom bordered and artistically painted. Puffing between center and side panels of satin edged with gold lace, over which is laid a gold cord, producing a new and neat effect. Lettered on back with name, number and date of institution in gold leaf, trimmed with gold fringes, cord, tassels and laces, making a very attractive as well as durable banner. Brass cross bar, fine gold plated banner balance and eagle top staff with solid brass screw joint. The lettering on the back gives May 18, 1881, as date of institution of the lodge. Of the 10 charter members who formed the lodge at that time only one has died, Past Grand Charles A. Murch of Belfast. The lodge now numbers 100 members.

cratic candidate for Congress from the

Boston's Bunker Hill celebration
sent three hundred people to the hos-
pitals, many of them dangerously in-
jured, and there was no end of minor
accidents. The Bean City's patriotism
is explosive.

The Portland Press in its tabulation
of delegates chosen for the Bangor con-
vention assigns the two delegates from
Frankfort to Fernald, and people here-
abouts are wondering by what author-
ity. The chairman of the delegation is
Hon. Albert Peirce, who is for Cobb
first, last, and all the time.

President Roosevelt has ordered an
investigation of the Slocum disaster,
and it will be thorough. The evidence
already given at a coroner's inquest has
brought out the facts that the life pre-
servers were rotten and useless, and
that some of the cowardly crew trampled
women and children to save their own
lives.

Lewiston Sun: "So far as we have
noticed Prescott is as mum as Cobb. Fer-
nald has published a platform; but we
have not yet been able to get rid of the
feeling that Fernald's platform is only
bait. He hardly belongs to that dis-
agreeable breed called reformers. Do
you happen to recall any great struggle
of his for the reformation of Androscog-
gin County?"

It is stated that the Pettengill ad-
vertising agency which recently failed has
more than seven thousand creditors,
scattered from Maine to California,
their claims aggregating \$1,217,975,
of which only \$12,579 is secured. The
newspapers of the country are the
principal victims of this collapse of a
concern that had been considered as
good as the Bank of England until
quite recently. Among the worthless
assets is a claim of \$250,000 against a
bankrupt patent medicine company,
and it looks as if there would be prac-
tically nothing for the creditors.

Bryan will go to St. Louis with his
own State of Nebraska behind him,
and with a following composed mainly
of those who are "agin the govern-
ment." It matters not to them whether
Bryan advocates 16 to 1 or 40 to 1. Fi-
nancial questions do not specially con-
cern them; or any other public ques-
tions for that matter. They are de-
structive. They would dynamite the
temple of liberty if opportunity offered,
and leave not a vestige or trace of
our cherished institutions. We do not
mean that Bryan himself is that kind
of a man; but of such are quite a per-
centage of his followers.

The Portland correspondent of the
Bangor Commercial says that the
bustlers from the First district will go
to Bangor "in a position to 'line drives,'"
as Uncle Solon Chase used to say, and
to work with anybody who may want
something by and bye, always provid-
ing he is willing to vote for Col.
Prescott now." In plain English, that
means that they are ready to trade off
the State offices, in case their man is
nominated, for votes in the conven-
tion. Forewarned is forearmed, and
we doubt if the nomination can be
bought on those terms.

It is said that the recent cut in steer-
age rates is bringing to this country
the scum of Europe, and 1,300 immi-
grants are now detained at Ellis Island,
New York, nearly all of whom will be
deported. Officials at the island called
the immigrants that landed June 14th
the most degraded and ignorant they
had seen there. Paupers, idiots and
criminals are plentiful among the ar-
riving immigrants, and it is the opinion
of the officials that the European cities
have taken advantage of the cut rate
to ship here their paupers, criminals
and ne'er-do-wells. Of course the only
thing to do is to return them as expedi-
tiously as possible.

It has been the practice in Maine for
many prominent politicians to join the
grange. Mr. Cobb was advised to do
this and refused to do so, saying that
joining a grange would not make him a
farmer. Evidently the farmers have
confidence that if Mr. Cobb is elected
governor they will be safe in his hands.
—Augusta Cor. Boston Herald.

In this, as in other directions, Mr.
Cobb has shown his manliness and
good sense. He has not promised to
do all sorts of things to catch votes, as
one of his opponents has done; and no
one has dared to assert that he will
fail to do his full duty as Governor, or
ventured to question his qualifications
for that office.

The Maine Farmer, the next friend
of the Hon. Jos. M. Manley, racing against
the power of patronage and the Repub-
lican office-holding machine, is a sight
for gods and men.—Portland Argus.

It makes an excellent companion
picture to candidate Fernald's tirade
against extravagant State appropria-
tions for which he voted as a member
of the legislature. As the Bangor Daily
News well says:

He accuses the party which he asks
to give him the nomination—of gross
and culpable extravagance, forgetting
the fact that during the time that those
wasteful bills were passing through the
Legislature he was serving in the Maine
House or Senate, and seldom spoke on
any measure, and never made himself
conspicuous in opposition to the waste-
ful use of money, which he now con-
demns.

In an article on the contest for the
Republican nomination for Governor of
Maine the Waterville Sentinel says:

Lately some of the weekly papers
have taken up the cudgels for Cobb
and the State machine, notably the
Somerset Reporter and Belfast Journal,
but still their arguments bear little
weight with the other side.

While unintentional, no doubt, this
is a misrepresentation of the position
of The Journal, which has been a sup-
porter of Mr. Cobb from the first. Mr.
Cobb is known in a business way, per-
sonally, or by reputation, to many Wal-
do county people, and when his candi-
dacy was announced it was most favor-
ably received here. His leading oppo-
nent at that time was not acceptable
to the Republicans of Waldo county,
while Prescott and Fernald had not en-
tered the contest. So far as Waldo
county and The Journal are concerned
there has been no evidence of "ring"
or "machine" politics; and in giving
Mr. Cobb its support The Journal has
simply voiced the sentiments of prac-
tically every Republican in Waldo coun-
ty. And why should we not support
Mr. Cobb? Is he not the peer, at least,
of his opponents—a clean man in every
way, of proved business capacity and
executive ability, a straightforward
man, neither a hypocrite nor a demag-
ogue? As to the arguments of The
Journal bearing "little weight with the
other side" that does not specially con-
cern us. We do not expect to influence
the subsidized "organs" of the "other
side."

CLOSING OF THE SCHOOL YEAR.

Exercises Generally Confined to Practical
School Work.

The closing of the public schools has
come to be more in the nature of an exhi-
bition of the practical work done than
literary and musical exhibitions of former
days. Time was when each school was
assigned a day for closing and the last two
or three weeks of the last term of the school
year were devoted to learning "pieces" to
speak, writing compositions, practicing
songs, etc., for examination day. Now the
work is continued up to within a few days
of closing, and then a general review is
held. The last day brings a few visitors
to each school, all the schools close the
same day, and the exercises are confined to
the lessons of the year. No special attempt
was made at decoration in any of the
schools, but the rooms were enlivened by
the presence of bright flowers. In a few
of the schools the pupils have adopted class
colors, mottoes and flowers. The Upper
Grammar school has "Excelsior" for a motto,
the daisy for a flower and white and
gold for class colors. Grade 7 has "Row,
boat, row" for a motto, and the daisy for a
flower. The colors of the 6th grade are
red and white. The flowers at the North
Primary building were daisies and azaleas,
with ferns and evergreens, and at the South
Primary and South and Central Intermediate
the flowers were varied, the teachers
making use of such as were brought by the
pupils.

The teachers in the public schools ex-
pressed their appreciation of the labors of
John R. Dutton, Esq., who closes his ser-
vices as superintendent, by presenting him
with a large oil of field glasses, which he
prizes for their intrinsic value and practical
utility, but more as a token of esteem and
good feeling from his former associates in
the work. Mr. H. E. Ellis, who retires as
principal of the Grammar schools to become
superintendent of schools, was presented by
his pupils with a silver backed clock
brush. Teachers in the other grades also
received tokens of remembrance and good
feeling from their pupils.

The class which graduates from the Up-
per Grammar school to the High school
numbers 29.

SCH. GEN. ADELBERT AMES

Set on Fire by a Thief, She Belongs to the
Pendleton Bros. Fleet.

(Special Dispatch to the Boston Herald.)
FALL RIVER, June 19, 1904. The schooner
Gen. Adelbert Ames, Capt. C. H. Dodge,
now lying at the lumber dock of Cook, Bor-
den & Co., was set on fire by a thief early
this morning and it was only through the
quick action of the captain, cook and mate
that a conflagration was avoided. The
Ames arrived in this port Friday with a
cargo of hard pine lumber from Jackson-
ville, Fla., and yesterday noon was docked.
About 12 o'clock last night some one was
heard stirring about the captain's cabin,
but the captain heard no noise. The mate
Zaphirus Dodge, heard it and thought it
was the captain; the cook, J. S. Stowe,
heard it and thought it was the mate.
No one stirred until a few minutes later
the mate saw a man with a lantern go past
the cabin windows on the schooner's deck.
He left his bunk and, passing through the
cabin, saw a chair overturned. Going out-
side, nothing unusual was to be seen, and
the mate came back and called the cap-
tain. Then it was found that the captain's
watch had been stolen from his waistcoat,
hanging on the cabin wall. The mate next
saw a sheet of flame shoot from the forward
cabin roof and spread to the foremast. He
and the captain ran out on deck and found
the cabin a mass of flames. The mate next

and the captain ran out on deck and found

The burning vessel was tied up to the dock
on which there were thousands of feet of res-
inous pine lumber. Fortunately there was
not a breath of wind, or a disastrous fire
would have been caused. Capt. Dodge was
severely cut on the hand by putting his fist
through a broken window to admit a line of
hose. He says that his foremast, fore boom
and gaff are destroyed and the forward house
is a total wreck and will have to be rebuilt.

TORTURING
DISFIGURING
Skin, Scalp and Blood
Humours

From Pimples to Scrofula, from
Infancy to Age

Speedily Cured by Cuticura when
All Else Fails.

The agonizing itching and burning
of the skin, as in eczema; the fright-
ful scaling, as in psoriasis; the loss of
hair and crusting of the scalp, as in
scalped head; the facial disfigurements,
as in acne and ringworm; the awful
suffering of infants and anxiety of
worn-out parents, as in milk crust, tet-
ter and salt-rheum—all demand a rem-
edy of almost superhuman virtues to
successfully cope with them. That
Cuticura Soap, Ointment and Resolvent
are such stands proven beyond all
doubt. No statement is made regard-
ing them that is not justified by the
strongest evidence. The purity and
sweetness, the power to afford immedi-
ate relief, the certainty of speedy and
permanent cure; the absolute safety
and great economy, have made them
the standard skin cures, blood purifiers
and humors' remedies of the civilized
world.

Bathe the affected parts with hot
water and Cuticura Soap, to cleanse
the surface of crusts and scales, and
soften the thickened cuticle. Dry,
without hard rubbing, and apply Cuti-
cura Ointment freely, to allay itching,
irritation and inflammation, and soothe
and heal, and, lastly, take Cuticura Re-
solvent, to cool and cleanse the blood.
This complete local and constitutional
treatment affords instant relief, per-
mits rest and sleep in the severest
forms of eczema and other itching,
burning and scaly humors of the skin,
scalp and blood, and points to a speedy,
permanent and economical cure when
all else fails.

Sold throughout the world. Cuticura Resolvent 50c.

Facial Massage.

IN MY FACIAL WORK I use a medicated pad
for steaming the face, and a cream for the
massage. It is composed of the purest in-
gredients. It has a beautifying and cleans-
ing effect. It not only cleanses the skin, but
the skin and removes from the pores the im-
purities that accumulate and make the skin rough
and unwholesome. It has no equal for softening,
cleansing and nourishing the skin and developing
the tissues when properly massaged.

Brighman, a school teacher in that town. The teacher boarded at West's house and a discussion arose at the dinner table about a punishment inflicted by the teacher on West's boy. Dunton, Esq., and the respondent by W. H. McLellan, Esq. No defense was put in and West was bound over to S. J. Court in \$500. CHOKING CATARRH CURED. "Use Hyomei and be cured of catarrh," is what all who have tried it for that disease say to their friends.

It is the easiest thing in the world to stop catarrh at its beginning if you use Hyomei. Just breathe the health-giving, balsamic air for a few minutes and your catarrh will be cured.

In this city and neighboring towns, there are hundreds who can testify to the remarkable powers of Hyomei to cure catarrh. Many of the staunchest friends of the remedy to-day began its use with little hope that they would be cured, but with R. H. Moody offered to refund the money if it did not cure, they decided to try it, and were soon restored to health.

SEMI-ANNUAL MEETING OF OFFICERS OF THE TRIBES OF RED MEN will take place Monday evening, June 27th, and it is requested that all members should be in attendance. The tribe is one of the most flourishing in the State and is so recognized by the State officials.

PARADE. A Great Spectacular Success. Now on at the Opera House.

A crowded house greeted the first presentation of Parada in the Belfast Opera House Tuesday evening, June 21st. The entertainment consists of tableaux, dances, drills, vocal solos, a floral arch, and other interesting features. The Japanese oblation to the Mikado by a class of little girls, the "Night in Camp" by the Grand Army Post, and the drill by the Red Hussars, were especially fine. In the night in camp when the boys played the Star Spangled Banner and Old Glory was waved on the stage the audience rose and remained standing until the piece was completed. There were many special features that call for commendation, but we have only space for a general notice this week. Nearly 200 of our people, young and old, took part in the entertainment which is one of the best of the kind ever witnessed here. It was repeated last evening, with the added attraction of Little Roy, the star of the Children's Theatre, Boston, who will appear at each performance in humorous and pathetic recitations. Parada will be repeated tonight, Friday night, and Saturday afternoon. Do not fail to see it.

WOMAN'S BACK.

The Aches and Pains Will Disappear if the Advice of this Belfast Citizen is Followed.

A woman's back has many aches and pains. Most times it's the kidney's fault.

Backache is really kidney ache; That's why Donan's Kidney Pills cure it. Many Belfast women know this.

Read what one has to say about it: My Minnie O. Carpenter, Waldo, one and a half mile from the postoffice, says: "Everyone in Belfast who has backache ardently wishes to know how to be freed from the annoyance. How to stop it is often a mystery, particularly after the sufferer has exhausted all his knowledge of medicine. I unhesitatingly give this advice to any one pestered with backache or any of the symptoms which follow in the wake of that far too prevalent trouble, kidney complaint, go to Wilson's drug store, buy Donan's Kidney Pills, take a course of the treatment and they need have no fear of the results. I was so bad with backache during the past year that I could not attend to the ordinary and simple household duties sometimes, and after any extra exertion or the contraction of a cold aggravated pain was sure to set in despite the use of plasters and other makeshifts I employed. A friend advised me to use Donan's Kidney Pills and I acted on the advice. They stopped the last attack."

CRUEL HAIR.

I have at last found a harmless liquid for the removal of superfluous hair perfectly clean in five minutes, but if applied every third day it removes the hair permanently. It is made by the strength of the hair, the length of time it will take to entirely destroy it. It contains no caustic, acid or poisonous substance. Will remove a beard or cause injury in any way. It is sold to me under a personal guarantee to accomplish all that is claimed of it. It is made by parties with whom I am personally acquainted and have perfect confidence in.
